---

## 1. Identification of the substance or mixture and of the supplier

---

<b>Product Number(s)</b>	S020
<b>Product Name(s)</b>	WearMax Alcohol 70% Wipes Germ Shark PX7 Wipes
<b>Chemical Family</b>	Solution of ethyl alcohol (ethanol) absorbed onto fabric towels.
<b>Recommended use</b>	Sanitizing wipe.
<b>Restrictions on use</b>	Use only as directed.
<b>Supplier</b>	Trustor Coatings, LLP
<b>Address</b>	840 S 62 <sup>nd</sup> Avenue Wausau WI 54401
<b>Contact Number</b>	715 849-2989
<b>24 Hour Emergency Phone</b>	Infotrac (800) 535-5053 International (352) 323-3500 (collect)

---

## 2. Hazards identification

---

<b>GHS Classification</b>	Flammable liquid - 2 Eye irritation - 2
<b>Symbols</b>	Flame, Exclamation mark
<b>Signal Words</b>	Danger.
<b>Hazard Statements</b>	H225 - Highly flammable liquid and vapor. H319 - Causes serious eye irritation.
<b>Precautionary Statements</b>	
Prevention	P210 - Keep away from heat/sparks/open flames/hot surfaces. No smoking. P233 - Keep container tightly closed. P240 - Ground/bond container and receiving equipment. P241 - Use explosion-proof electrical/ventilating/lighting/equipment. P242 - Use only non-sparking tools. P243 - Take precautionary measures against static discharge. P264 - Wash hands thoroughly after handling. P280 - Wear protective gloves/protective clothing/eye protection/face protection.
Response	P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P304+P340+P312 - IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell. P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313 - If EYE IRRITATION PERSISTS: Get medical advice/attention. P370+P378 - In case of fire: Use alcohol resistant foam, carbon dioxide, or dry chemical to extinguish.
Storage	P235 - Keep cool. P403 - Store in a well-ventilated place.
Disposal	P501 - Dispose of contents/container in accordance with local and national regulations.
<b>Supplemental Information</b>	

---

## 3. Composition/information on ingredients

---

Hazardous Components	CAS #	Concentration
----------------------	-------	---------------

# Safety Data Sheet

WearMax Alcohol 70% Wipes, Germ Shark PX7 Wipes

Date: September 3, 2020

Version: 1

Page 2 of 5

ethyl alcohol (ethanol)

64-17-5

64-65% by weight  
70% by volume

\* Percentages applies to the liquid portion absorbed onto towels. The towel is inert and not classified nor included in the percentage calculation.

---

## 4. First aid measures

---

<b>General</b>	In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.
<b>Inhalation</b>	Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, administer artificial respiration. Give nothing by mouth. If unconscious, place in recovery position and seek medical advice.
<b>Eye Contact</b>	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
<b>Skin Contact</b>	Remove contaminated clothing. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do not use solvents or thinners.
<b>Ingestion</b>	Call a physician or poison control center immediately. Dilute by giving 1 - 2 glasses of water or milk. Only induce vomiting at the instruction of medical personnel. Never give anything by mouth to an unconscious person.
<b>Advice to physician</b>	Treat symptomatically.

---

## 5. Fire-fighting measures

---

<b>Extinguishing Media</b>	SUITABLE: Alcohol resistant foam, CO <sub>2</sub> , dry chemical. UNSUITABLE: Water is unsuitable.
<b>Special Protective Equipment for Firefighters</b>	Wear self-contained breathing apparatus for firefighting.
<b>Specific hazards and combustion products</b>	Keep containers in proximity of fire cool with water spray. Decomposition products may include oxides of carbon, and smoke.

---

## 6. Accidental release measures

---

<b>Steps to be taken if material is released or spilled</b>	Evacuate personnel to safe areas. Remove all sources of ignition. Use appropriate personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas. Prevent further leakage or spillage if safe to do so. Dike and collect spillages with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations. Do not let product enter drains. Discharge to the environment must be avoided. Report spills to appropriate agencies if required by law.
---	---

---

## 7. Handling and storage

---

<b>Handling</b>	Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Use explosion-proof equipment. Keep away from sources of ignition. No smoking. Take measures to prevent the build-up of electrostatic charge such as grounding lines and equipment used during transfer.
<b>Storage</b>	Keep containers tightly closed. Store at ambient temperatures. Keep away from any ignitions sources. Outside storage is preferable. Keep separate from oxidizers.

## 8. Exposure controls/personal protection

---

<b>Exposure limits</b>	ethyl alcohol (64-17-5) OSHA PEL 1000 ppm TWA ACGIH TLV 1000 ppm TWA
<b>Engineering measures</b>	Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations below applicable exposure limits, suitable respiration protection must be worn. Exposure limits should be monitored using suitable analytical equipment.
<b>Respiratory protection</b>	In situations where exposure limits are exceeded, NIOSH approved respiratory protection with organic vapor cartridges should be used for short term exposure. Self contained breathing apparatus should be used where exposure limits may be exceed for extended durations.
<b>Hand protection</b>	Avoid skin contact. Impervious gloves should be worn for direct contact. Additional protection may be necessary to avoid skin contact including use of long sleeves, apron, face shield, boots, or full body protection.
<b>Eye protection</b>	Safety eye wear designed to protect against splash of liquids. Eye wash stations should be available where eye contact may occur.
<b>Skin protection</b>	Work clothes and closed footwear. Affected parts of the body should be washed with soap and water and rinsed thoroughly after contact.
<b>Other protection</b>	Facilities storing or using this material should be equipped with an eyewash facility and a safety shower.

---

## 9. Physical and chemical properties

---

<b>Appearance</b>	Clear, colorless liquid.
<b>Odor</b>	Lemon fragrance.
<b>Odor threshold</b>	Not determined.
<b>PH</b>	5.0 - 9.0
<b>Melting/Freezing point</b>	Not determined.
<b>Initial boiling point and range</b>	≥ 173 F (≥ 78 C)
<b>Flash point</b>	≥ 60 F (≥ 15 C)
<b>Evaporation Rate</b>	Not determined.
<b>Flammability (solid, gas)</b>	Flammable liquid.
<b>Lower explosive limit</b>	Not determined.
<b>Upper explosive limit</b>	Not determined.
<b>Vapor pressure</b>	Not determined.
<b>Vapor density</b>	Not determined.
<b>Relative density</b>	0.835
<b>Solubility</b>	Miscible with water in any proportion. Also miscible with many solvents
<b>Partition coefficient</b>	Not determined.
<b>Auto-ignition temperature</b>	> 680 F (> 360 C)

---

<b>Decomposition temperature</b>	Not determined.
<b>Viscosity</b>	Not determined. Liquid absorbed on to towel.

---

## 10. Stability and reactivity

---

<b>Reactivity</b>	No specific hazards.
<b>Stability</b>	Stable under normal conditions.
<b>Possible hazardous reactions</b>	Hazardous polymerization will not occur.
<b>Conditions to avoid</b>	Keep away from heat, static discharges, sparks, flames and other ignition sources.
<b>Incompatible materials</b>	Strong oxidizing agents,.
<b>Hazardous decomposition products</b>	Decomposition products may include oxides of carbon, and smoke.

---

## 11. Toxicological information

---

The preparation has not been tested for toxicological effects. Based on known effects of the component materials, the product is classified for human health effects as indicated below.

<b>Likely routes of exposure</b>	Skin, eye, inhalation, ingestion.
<b>Eye contact</b>	May cause eye irritation or damage.
<b>Skin contact</b>	May cause skin irritation with repeated or prolonged contact. Repeated skin contact may cause an allergic reaction in a very small proportion of individuals.
<b>Inhalation</b>	May have intoxicating effects if inhaled continuously over an extended period of time. (See Section 7 for exposure limits.) May cause respiratory tract irritation. May cause Central Nervous System (CNS) depression.
<b>Ingestion</b>	May be harmful if swallowed. Large doses can lead to alcohol poisoning. The presence of denaturants significantly increases toxicity. Can cause irritation of the mucous membranes. Readily absorbed by the stomach and intestinal tract with symptoms including, but not limited to, nausea, vomiting, dizziness, headaches, drowsiness, loss of consciousness, delirium, excitation, euphoria, and other harmful CNS effects. Severe acute intoxication may cause hypoglycemia, hypothermia, and extensor rigidity.
<b>Target organ effects</b>	Central nervous system effects.
<b>Chronic effects</b>	May cause skin irritation or allergic reaction in a small proportion of people with chronic exposure. Chronic effects associated with ethyl alcohol beverage consumption are not relevant as a hand sanitizer.
<b>Medical conditions aggravated by exposure</b>	None known.
<b>Acute toxicity values</b>	The product has not been tested. Acute toxicity estimates (ATEs) for the active component are below.  <b>Ethyl Alcohol</b> Oral LD-50: 7,060 mg/kg (literature) Dermal LD-10: 20,000 mg/kg (literature) Inhalation LC-50: 66,000 mg/l (literature 4 hour exposure)
<b>Carcinogenicity status</b>	None of the components of this product present at or above 0.1% concentration are listed as carcinogens, potential or suspected, by the NTP, IARC, or OSHA.

Page 5 of 5

---

## 12. Ecological information

<b>Eco-toxicity</b>	The product has not been tested. Not classified for aquatic toxicity based on component data.
<b>Persistence and degradability</b>	Readily biodegradable. Ethyl alcohol is widely recognized as being readily biodegradable in the environment as it is both a metabolite and nutrient for microbes.
<b>Bioaccumulative potential</b>	Not expected to bioaccumulate.
<b>Mobility in soil</b>	Not determined.
<b>Other adverse effects</b>	None known.

---

## 13. Disposal considerations

Dispose of material in accordance with federal, state and local regulations. Do not allow into drains or watercourses.

---

## 14. Transport information

<b>DOT description</b>	UN 1987, Alcohols, n.o.s., 3, PG II
------------------------	-------------------------------------

---

## 15. Regulatory information

<b>Toxic Substances Control Act (TSCA)</b>	All components of this product are included on or exempt from the TSCA inventory.
<b>SARA Title III Section 302</b>	The components in this product are either not SARA Section 302 regulated or regulated but present in negligible concentrations.
<b>SARA Title III Section 313</b>	The components in this product are either not SARA Section 312 regulated or regulated but present in negligible concentrations.
<b>California Proposition 65 Reproductive Toxins</b>	None of the ingredients present in the product are known to the state of California to cause birth defects or other reproductive hazards.

---
